**Seal Bond 150** is a multipurpose structural sealant designed for difficult bonding and sealing applications. It is a moisture curing sealant developed for industrial uses requiring elasticity, high strength and excellent adhesion.

**Seal Bond 150** is tough, elastic and waterproof. It bonds aggressively to steel, aluminum, ceramics, Styrofoam® Kynar® coated metal, glass, wood and many plastics. Seal Bond 150 is suited for many applications requiring adhesion to concrete and cementitious building materials.

**Seal Bond 150** is based on a unique polymer system that is fast curing at temps as low as 13° F. Seal Bond 150 has excellent weathering characteristics and is suitable for use in all climates.

**Applications**

- Metal and glass bonding in the automotive industry including windshield bonding
- Sealing and bonding metal to metal seams
- Metal to plastic bonding
- Bus, trailer and motor home sealing and bonding
- Marine bonding
- Concrete bonding and sealing

**Benefits and features**

- Solvent and isocyanate free, No VOC's
- Permanently elastic in a broad temperature range
- Extremely low shrinkage
- Fast curing
- Paint compatible
- Good chemical resistance
- Low odor
- Non-flammable

**Physical properties:**

- Basic material: Modified Polyether
- Consistency: Self-leveling Fluid
- Color: Black, Gray, and White
- Odor: Nil
- Components: 1
- Type: Elastic
- Specific gravity: 1.7
- Solvent percentage: 0
- Isocyanate percentage: 0
- Shelf Life: 11 months in unopened containers stored between 60°F and 80°F.
